SUMMARY

AI and Full Stack Engineer with hands-on experience building enterprise AI applications using React, FastAPI, Node.js, MongoDB, Python, and Large Language Models (LLMs). Developed production-ready AI platforms for cultural analysis, licensing pricing, and media intelligence. Passionate about solving customer problems through scalable software, rapid prototyping, and cross-functional collaboration.

EDUCATION

VIT Bhopal University, Bhopal

B.Tech - Computer Science and Engineering in AIML - CGPA - 7.86

2023 – 2027

Bhopal, Madhya Pradesh

Swarajya Senior Secondary

Class 12th - Percentage - 77.4%

2022 – 2023

Pune, Maharashtra

City International School

Class 10th - Percentage - 88%

2020 – 2021

Pune, Maharashtra

EXPERIENCE

Entertainment Technologists Dev Corp

October 2025 - Present

Role - Full Stack Developer Intern

Remote

- Developed AI-powered Cultural Analysis and Pricing modules for MediaShipper's enterprise platform.
- Built end-to-end REST APIs using FastAPI and integrated them with React and Node.js applications.
- Integrated Gemini LLMs for content analysis, recommendation, and workflow automation.
- Worked on full-stack implementation including backend APIs, frontend integration, MongoDB, and production debugging.

PROJECTS

Cultural Analysis Platform 🔗 | [React.js](#), [FastAPI](#), [Gemini API](#), [Python](#), [TMDB API](#)

April 2026

- Developed an AI-powered Cultural Analysis platform to evaluate content compatibility across multiple global regions using LLM-based reasoning.
- Built scalable FastAPI backend services and integrated them with React frontend and MongoDB for enterprise workflow automation.
- Implemented REST API integrations and optimized frontend-backend communication for production deployment within the MediaShipper platform.

AI Pricing Management Platform 🔗 | [FastAPI](#), [Python](#), [TMDB](#), [OMDb](#)

May 2026

- Built an AI-powered cultural analysis platform using LLMs for multi-region content evaluation.
- Integrated multiple third-party APIs including TMDB and OMDb for automated pricing recommendations.
- Built scalable REST APIs consumed by enterprise frontend applications.

Emotional Analysis Platform 🔗 | [React.js](#), [Python](#), [FastAPI](#)

June 2026

- Built an AI-powered emotional analysis platform to identify audience sentiment and emotional patterns in media content using LLMs.
- Developed scalable backend APIs and integrated AI-generated insights into enterprise dashboards.
- Built an AI-powered emotional analysis platform to evaluate audience engagement and commercial potential using Large Language Models.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C++, SQL

Frontend: React.js, Next.js, HTML, CSS, TypeScript

Backend: FastAPI, Node.js, Express.js, REST APIs, MongoDB, MySQL

AI & Machine Learning: LLMs, Gemini API, Prompt Engineering, NLP, Computer Vision, PyTorch, Scikit-Learn, Pandas, NumPy

Developer Tools: Git, GitHub, AWS, Postman, VS Code, Jupyter Notebook, Google Colab

Core CS: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks

CERTIFICATIONS

- Applied Machine Learning in Python – by Coursera (Issued on 17th November 2025)
- AWS Certified Developer - by Infosys Springboard Associate Certification (Issued on 6th June 2025)
- NPTEL Cloud Computing Online Certification (Issued on 23rd May 2025)
